

# Planetary Psychology

## *Sanity in the Balance*

A Slideshow Presentation by **Craig Chalquist, MS PhD**

We've heard the bad news.... ....and some of the good news....

- vanishing resources
- mass extinctions
- global warming
- overpopulation
- pollution
- green activism
- green litigation
- growing awareness
- international outcry
- land and animal protection

....but where in the discussion is the keystone factor behind it all: **human psychology**, source of both the environmental crisis and the hope for resolving it?

Craig Chalquist (author of *Terrapsychology: Reengaging the Soul of Place* and co-editor of the forthcoming *Ecotherapy: Psyche and Nature in a Circle of Healing*) has blended knowledge from deep psychology and deep environmentalism into a “terrapsychological” overview of how *human health and sanity depend on the integrity of our surroundings*.

The presentation also offers research-based guidance for public discussion of the environmental crisis and suggestions for the mutually reinforcing healing of people, creatures, and planet.

**To schedule a presentation contact Craig Chalquist at 707-508-7270 or send an email to [chalquist@terrapsych.com](mailto:chalquist@terrapsych.com).**
